网上学生注册资料管理系统 Online Management For Chinese School (www.omfcs.com)
OMFCS is an online school registration management service provided to member schools.

主要功能

➢ **Flexible, Self-Help Setup** *(www.omfcs.com/reg/demo/Registration_Admin.asp)*

- Easy to configure school information to automatically display on your school registration site. These information includes: school year, semester, registration fee, deadline, discount schedule, late fee, tuition payment address, school home page, etc.;
- Easy to setup class time, class schedule, teacher, classroom, etc.
- Optional to block late registration or to send email to school administrator for each student registration.

➢ **User-Friendly Student Registration Web Site** *(www.omfcs.com/reg/demo/Registration.asp)*

- Simply steps for new registration;
- Easy drop down menu to select classes by class time and one-click to check completed class schedule;
- One registration can have up to four students for a single family;
- Presenting registration information and tuition summary online right after submission;
- Automatic email to user with registration information, tuition summary and payment instruction;
- Easy re-register for new semester by editing existing information for existing users;
- Automatic reminder on classes they have taken in the last semester;
- No need to remember username/password. Automatically email username/password after providing parent's name or student's name.

➢ **Comprehensive Data Management** *(www.omfcs.com/reg/demo/Registration_Manager.asp)*

- Password protected registration management web site for each school;
- Completed student roster with parents' name, registered classes, tuition payment, etc.
- Easy to reorder student roster with choices of by parent's name or by student's name with one click of button.
- Clear display of tuition payment information with highlight on students without full tuition payment;
- Easy to display and to collect a group of students' contact information
- Build-in email function for sending email to selected students or to remind tuition payment;
- Convenient access to the printer-ready student list by class;
- Registration priority is ready for access when needed;
- An ftp account can be setup for downloading school's database if needed.

➢ **Secure, Integrated Tuition Management** *(www.omfcs.com/reg/demo/Tuition_Manager.asp)*

- Separated username and password for school treasurer;
- Space provided for recording detailed tuition payment, such as total tuition due, amount paid, paid date;
- Additional space is provided for notes on check number, prorated or refund, etc.
